Professional Summary

Computer Science graduate with practical experience in database management, ERP support, and web application development. Skilled in Oracle, MySQL, and SQL, with experience developing web applications using PHP, HTML, and CSS. Strong analytical and problem-solving skills, with a focus on data accuracy and reliable business operations.

Work Experience

Information System Officer – Richard Pieris Distributors (Pvt) Ltd **May 2025 – November 2026**

- Managed Oracle Database and Microsoft SQL Server for ERP and POS systems.
- Developed, optimized, and maintained SQL queries, stored procedures, and database reports.
- Performed data validation, reconciliation, and integrity checks across multiple business systems.
- Coordinated with Finance, IT Infrastructure, and software vendors to resolve production issues.
- Managed user accounts, access permissions, and application configurations.
- Improved query performance through SQL optimization techniques.

IT Executive – Sri Lanka Insurance Corporation Life Limited **November 2026 - Present**

- Managed Oracle Database and Microsoft SQL Server for ERP and POS systems.
- Developed, optimized, and maintained SQL queries, stored procedures, and database reports.
- Performed data validation, reconciliation, and integrity checks across multiple business systems.
- Coordinated with Finance, IT Infrastructure, and software vendors to resolve production issues.
- Managed user accounts, access permissions, and application configurations.
- Improved query performance through SQL optimization techniques.

Education

Bachelor of Science (Hons) in Computer Science **2020 – 2025**
South Eastern University of Sri Lanka

GCE Advanced Level - Science Stream **2018**
Malwaththawala Central College
Combined Maths - C , Chemistry - S , Physics - S

Key Skills

Programming Languages: SQL | Python | Java | JavaScript | PHP

Web Technologies: HTML5 | CSS

Database Technologies: Oracle Database | MySQL

Development Tools: Visual Studio Code | Git | Android Studio

Database & Application Support: SQL Query Development | Data Validation | ERP Support

Projects

Misty Sip – Point of Sale (POS) System **2026**

Developed a web-based POS system for a beverage shop to support sales transactions, inventory control, and cashier operations.

- Implemented sales processing, checkout, and receipt generation.
- Developed product and inventory management features.
- Integrated cashier management, role-based access control, and sales tracking.
- Implemented sales reporting and database backup and restore functionality.

Student Result Management System **2025**

Developed a database-driven web application to manage student records and examination results.

- Implemented a secure admin panel to add, update, and view student results.
- Enabled students to retrieve results using their roll number and class.
- Generated downloadable and printable PDF result sheets using FPDF.
- Used MySQL to store and manage student, subject, and result records.

Research Project

Oral Cancer Image Classification Using Convolutional Neural Network & Transfer Learning **2025**

- Conducted a comparative study using Convolutional Neural Networks (CNN) and Transfer Learning techniques to classify histopathological images of oral cancer.
- Developed a custom CNN model from scratch, experimenting with layer configurations and hyperparameters to perform binary classification (Cancer vs. Non-Cancer).
- Applied EfficientNetV2B0, a pre-trained state-of-the-art architecture, using transfer learning to improve accuracy and reduce training time.
- Achieved significantly higher performance with transfer learning (~90% accuracy), compared to the CNN baseline (~65.75%).
- Implemented an image prediction function to classify individual histopathological images in Google Colab.
- Visualized model predictions and performance metrics, demonstrating potential for AI-assisted diagnostic tools in healthcare.

Certifications

Certificate in English
Sabaragamuwa University of Sri Lanka **October 2018**

Python for Beginners
Centre of Open & Distance Learning, University of Moratuwa **April 2023**

Web Design for Beginners
Centre of Open & Distance Learning, University of Moratuwa **April 2023**

Front-End Web Development
Centre of Open & Distance Learning, University of Moratuwa **May 2024**
